

Jennifer Government: A Vintage Contemporary Novel by Max Barry

Jennifer Government is a 2003 novel by Australian writer Max Barry. The novel is set in a near-future dystopian society where the government has outsourced all of its functions to a private corporation called Nurval. Nurval uses advanced technology to monitor and control the population, and it has created a system of mandatory consumerism in which citizens are constantly bombarded with advertising and encouraged to buy more and more products.

The novel follows the story of John Nike, a young man who is struggling to find his place in this strange new world. John is an outsider, and he doesn't fit in with the rest of society. He doesn't like to buy things, and he doesn't like to be controlled. John is drawn to Jennifer Government, a mysterious woman who seems to be immune to Nurval's control. Jennifer is a rebel, and she is fighting against Nurval's tyranny.

John and Jennifer team up to take down Nurval and create a more just and equitable society.
