

MLM Networking: Simple, Cheap, and Easy for Everyone

What is MLM Networking?

Multi-level marketing (MLM) is a business model that allows individuals to earn money by selling products or services and recruiting new members into the business. MLM companies typically offer a range of products and services, such as health and wellness products, cosmetics, and financial services.

MLM networks are structured in a hierarchical manner, with members at the top of the pyramid earning a commission on the sales of their downline members, who are the members they have recruited into the business.
