How it Works

See and See Like to Read uses a smartphone or tablet to overlay digital content onto the pages of a physical book. When a child holds the device over the book, they can see the characters come to life, hear them talk, and interact with them.

The program includes a variety of interactive features, such as:

- **Pop-up characters:** Characters from the book pop up on the screen and talk to the child.
- **Interactive games:** Children can play games with the characters, such as puzzles, memory games, and trivia.

- **Educational videos:** Children can watch videos that teach them about the concepts in the book.
- **Sing-along songs:** Children can sing along to songs that reinforce the concepts in the book.

Benefits of See and See Like to Read

See and See Like to Read has a number of benefits for children, including:

- **Increased engagement:** AR makes learning more fun and engaging for children. They are more likely to pay attention and participate in the learning process.
- **Improved comprehension:** AR helps children to better understand the concepts in a book. They can see the characters and objects in the book come to life, which helps them to visualize the story and make connections between the text and the real world.
- **Enhanced vocabulary:** AR exposes children to new words and phrases. They can hear the characters speak and interact with them, which helps them to develop their vocabulary and language skills.
- **Developed critical thinking skills:** AR helps children to think critically about the concepts in a book. They can interact with the characters and make choices that affect the story, which helps them to develop their problem-solving and decision-making skills.

How to Use See and See Like to Read

See and See Like to Read is easy to use. Simply download the app to your smartphone or tablet and open it. Then, hold the device over the pages of a compatible book. The AR content will appear on the screen.

See and See Like to Read is compatible with a variety of books, including fiction, nonfiction, and textbooks. A list of compatible books can be found on the See and See Like to Read website.

See and See Like to Read is an innovative and engaging way for children to learn. It uses AR to bring books to life and make learning fun and interactive. The program has a number of benefits for children, including increased engagement, improved comprehension, enhanced vocabulary, and developed critical thinking skills.

If you are looking for a way to make learning more fun and engaging for your child, then See and See Like to Read is the perfect solution.
