Origins and Early History

The Cutler family traces its roots back to the early 17th century, when John Cutler, a Puritan minister, arrived in the Massachusetts Bay Colony. John was a devout man, but he was also ambitious and ruthless. He quickly became one of the colony's most powerful figures, and his wealth and influence grew rapidly.

However, John's success came at a price. He was a harsh and unforgiving man, and his treatment of his family and servants was often cruel. His wife, Sarah, died young, and his children were left to fend for themselves. John's eldest son, William, inherited his father's ruthlessness and ambition, but he also had a more sensitive side. He was torn between his desire for power and his love for his family.

The Revolutionary War

The Cutler family played a significant role in the American Revolutionary War. William Cutler was a Patriot, and he fought bravely in the Battle of Saratoga. However, his younger brother, Thomas, was a Loyalist, and he fought against the Patriots. The war tore the family apart, and it would take many years for the wounds to heal.

The 19th Century

In the 19th century, the Cutler family continued to prosper. They invested their wealth in railroads and other new industries, and they became one of the wealthiest families in America. However, their wealth and power also made them a target for scandal and gossip. In 1872, William Cutler's son, John, was accused of murdering his wife. The trial was a sensation, and it divided the nation. John was eventually acquitted, but the scandal cast a long shadow over the Cutler family.

The 20th Century

The 20th century was a time of great change for the Cutler family. The Great Depression wiped out much of their wealth, and they were forced to sell off many of their assets. However, the family managed to survive, and they slowly rebuilt their fortune. In the 1960s, the Cutler family became

involved in the civil rights movement. They supported the efforts of Martin Luther King, Jr., and they worked to promote racial equality. In the 1980s, the Cutler family was hit hard by the AIDS crisis. Several members of the family died from the disease, and the family was devastated.

The Present Day

Today, the Cutler family is still one of the most powerful and influential families in America. They have diversified their investments, and they are active in a wide range of businesses. The family is also deeply involved in philanthropy, and they have donated millions of dollars to various charities.
